

PORTFOLIO SLIDE DECK

Dan Mo

SITEMAP

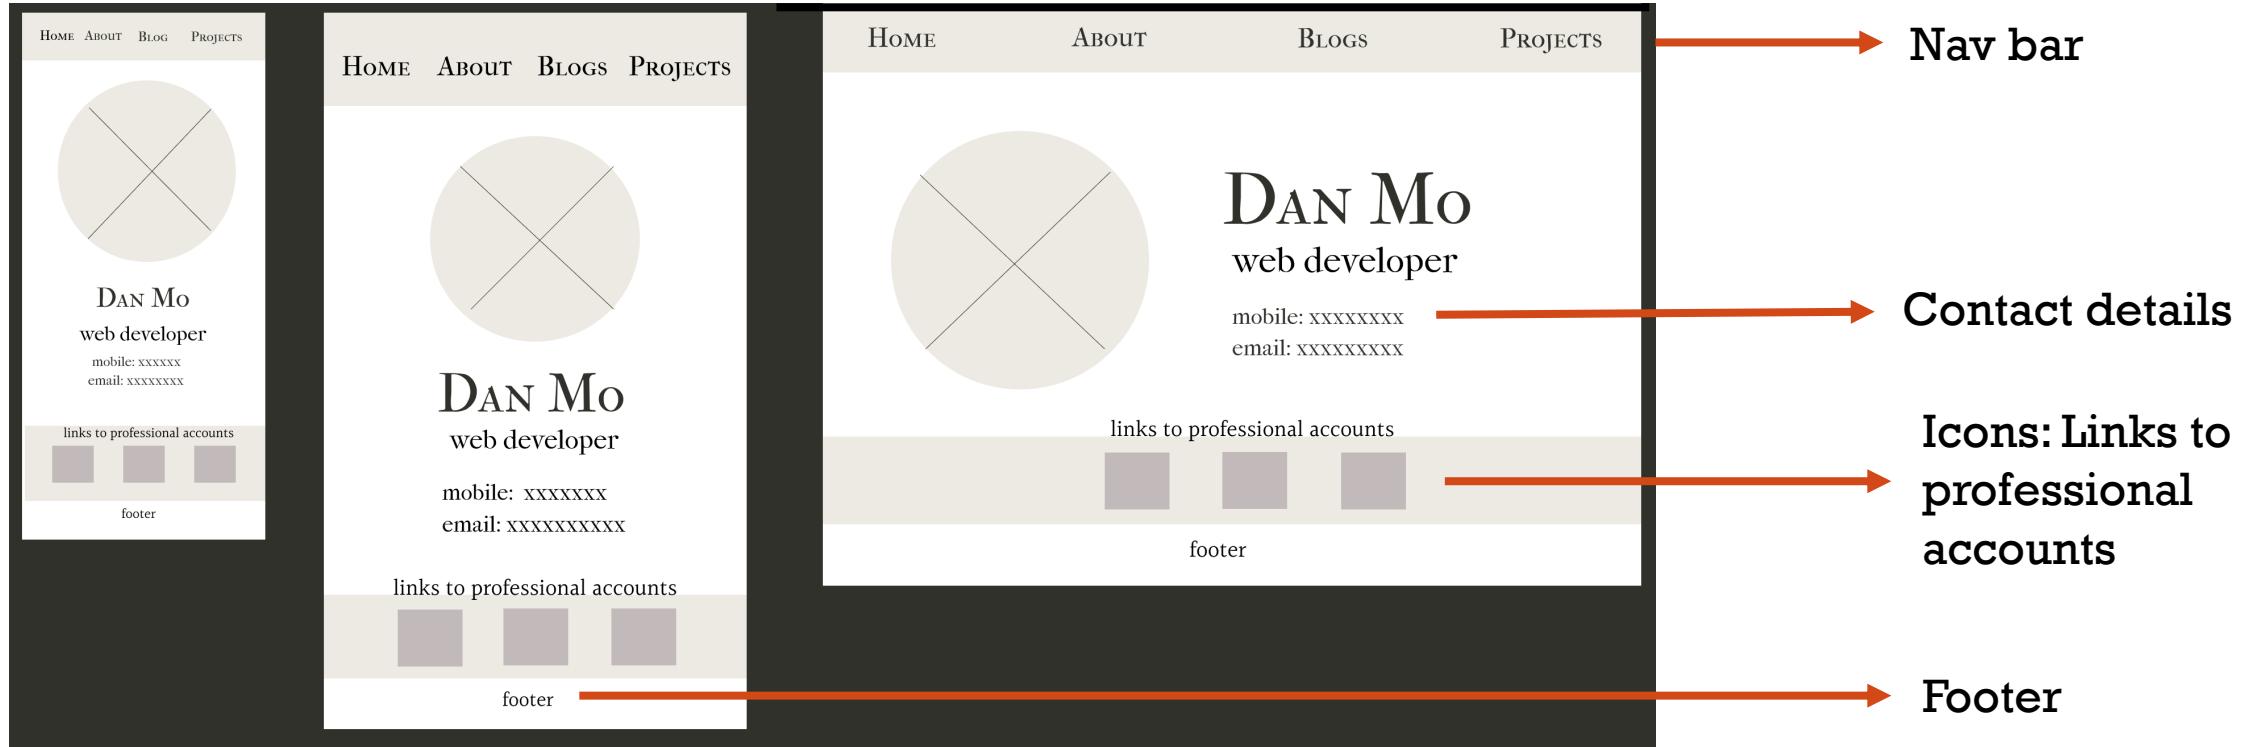

DESIGN

- Use of images on every page to grab attention
- Simple layout with some animations and effects for the features and content to stand out
- Choose of colors:
 - Select colors in my profile photo in home page for the design of the website
 - Color code:
 - Yellow / Brown-- background and banners, nav / side bar items
 - Blue -- links
 - Black -- H1 and texts
 - Red -- H2

Effect: blue box-shadow when
hovered

LIST OF COMPONENTS

- **Nav bar:** nav bar on top of every page to navigate to four main pages; text color changes when hovered to indicate links
- **Social media banner:** social media icons are styled to translate slightly when hovered to indicate links to professional accounts and to draw attention
- **Resume button:** resume link styled in button shape; the “button” scales and text color changes when hovered to indicate links and to draw attention
- **Blog / Project cards:** links to blog posts/ project repos styled to be cards which get blue shadows when hovered to indicate links and emphasize contents
- **Side bar:** side bar follows as audience scroll to encourage search of key words and subscription for updates

REVIEW

- Challenges:
 - adjusting the display of components in each page
 - keeping the code dry
- Favorite part:
 - designing the website
 - coding for it with all the skills I've learnt
